Braking system:	Skid brakes
Maximum capacity:	720 riders per hour
Ride debut at Knoebels:	June 15, 1985
Previous location:	Playland Park, San Antonio, Texas 1948-1980

History: Phoenix originally operated as Rocket at Playland Park in San Antonio, Texas. It opened in 1948, but when Playland Park closed in 1980, its future was uncertain despite its great condition. When Knoebels purchased it, it was disassembled, moved to Knoebels via 34 tractor trailers, then opened as Phoenix in 1985. It was named the #1 wooden roller coaster by *Amusement Today's* Golden Ticket Award voters in 2018.
